### Appropriation Notes

This institution is a signatory to the Federal Demonstration Partnership (FDP) Phase IV Agreement which requires active institutional participation in new or ongoing FDP demonstrations and pilots. Carry over of an unobligated balance into the next budget period requires Grants Management Officer prior approval.

This award reflects use of an unobligated balance of $21,467 based on the year 16 Financial Status Report (FSR). Although this award reflects an adjustment, this is not a decrease in funding for the project.

In accordance with the November 22, 2005 letter, information regarding the program’s minority recruitment plan and its implementation must be included in each non-competing continuation application. New efforts and results should be reported.

It is understood that no trainee will be permitted to work on any project involving live vertebrate animals or human subjects that has not been approved by the IACUC and/or IRB, as appropriate.

This award includes funds to support 5 trainees (60 Trainee Months). The maximum number of trainees that may be appointed without the prior written approval of NIGMS staff is 6 (72 Trainee Months) if funds are available through rebudgeting.

Conflicts of Interest Reminder: All investigators must update conflict of interest disclosures as new reportable conflicts of interest are discovered. Such disclosures should be made in a timely manner in order to maintain compliance with sponsor requirements. Investigator is defined as the PI, co-PI, or any other person responsible for the design, conduct, or reporting of activities related to this project. The updated disclosure should be made on an OSR-100 form, available at [http://www.research.northwestern.edu/research/osr/forms.html](http://www.research.northwestern.edu/research/osr/forms.html)

# Award Projection Report

**Between 2013 and 2015**

This report will not contain clinical trials since these projects are budgeted on a per patient basis instead of by budget period. Also, this report contains InfoEd awarded direct and indirects only. It does not include carry forward balances or actual NU financial expenses. Grant budget period award amounts are prorated to a weekly value based on budget period start and end dates and totaled for the fiscal year time frame. The calculated award amounts on this report will not tie out to any other InfoEd reports unless totaled for each fiscal period the budget period spans.

## Notes
- The table above provides a detailed overview of the award projections between 2013 and 2015. Each row represents a specific award, detailing its status, start and end dates, and financial projections for direct and indirect costs.
- The data is organized to facilitate easy comparison and analysis of award projections across different fiscal years.
GM091 - Sponsor Payments Received Report
This report presents details of payments received by contract, with a breakout by project.
Payment activity includes all forms of payments as well as a subset of write-offs and other maintenance items.
Note: For converted non-clinical awards, payment data prior to December 2008 is not available.
