About the Tuition Input View

This visual aid shows the Tuition Input view in NUPlans Forecasting. Print this document. Use it for visual reference with related job aids and to take notes with related videos.

- To enter head counts: (1) enter an amount, (2) optionally enter a percentage, and (3) select a method. NUPlans recalculates each time you select a method.
- To enter rates: (4) enter an amount, (5) optionally enter a percentage, and (6) select a method. NUPlans recalculates automatically.
- The calculation you created is Current Head Count x Current Rate = Total Revenue. Scroll right to see more calculations based on your input and the program profiles.
